

Plissé Order Preparation Work Sheet For Double Doors

Follow these simple steps to gather all the information you will need to order your Plisse screen
Print one work sheet for each screen you would like to order

Location of this screen (something like "front door") _____

Detailed measuring instructions with photos can be viewed at measuring instructions page

For help deciding where to measure to at the bottom of the door opening and for help deciding if you need the optional threshold adapter see page two of this document.

Step 1 Measure width at top

At the top make a mark 30 inches from the left side.

Now measure from the right side to your mark and record it in the box below.

Add that amount to 30 inches and record. This is the top width measurement for your screen.

Step 2 Measure width at bottom

Repeat procedure at the bottom of the door and record in the box below.

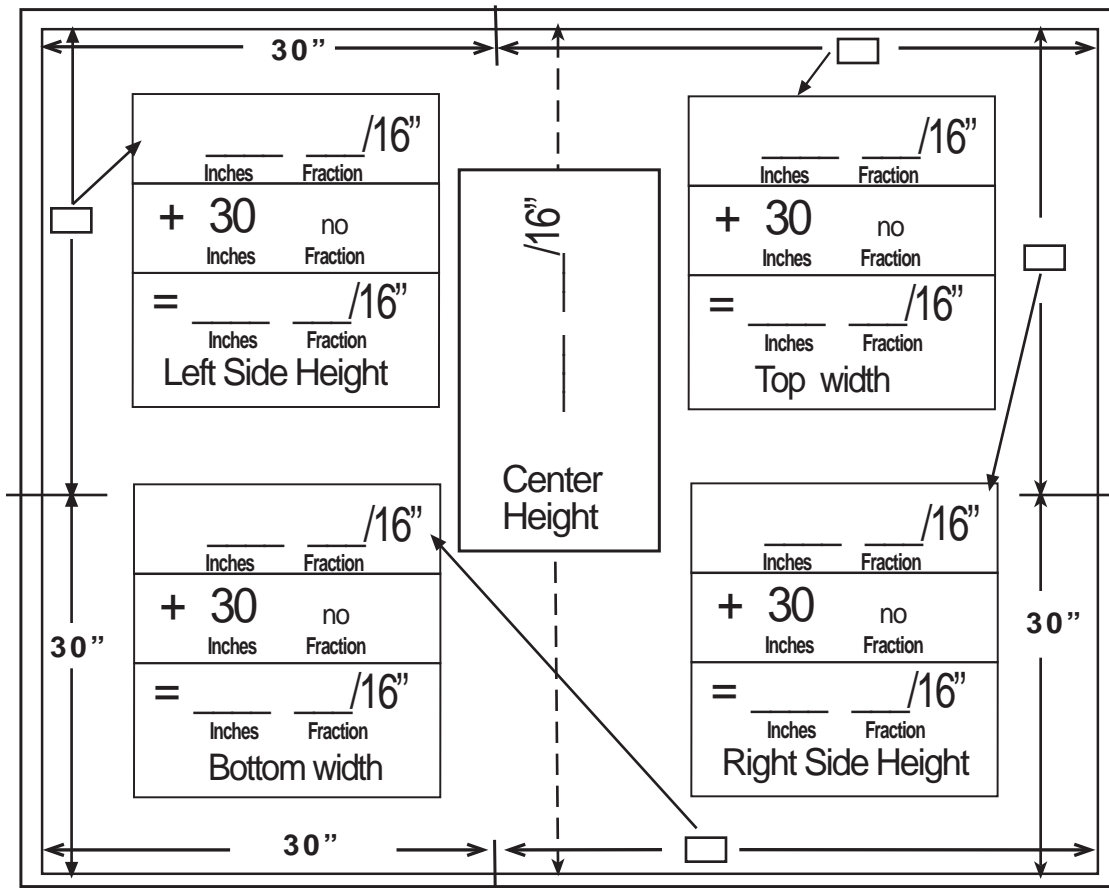

This is your bottom width measurement.

Step 3 Measure height at left side

At the left side make a mark 30 inches from the bottom.

Measure from the top to your mark and record it in the box below.

Add that amount to 30 inches and record. This is the left side measurement for your screen.

Step 4 Measure height at right side

Repeat procedure at right side of the door and record in the box to the left.

This is your right side height measurement.

Step 5 Measure height at center

Check height at center and record in the box to the left.

For this measurement you may need someone to help hold the end of the tape measure

Step 5 Circle the frame color you want White Bronze Sand Creme Custom (color match charge incurred
Please send sample to be matched)

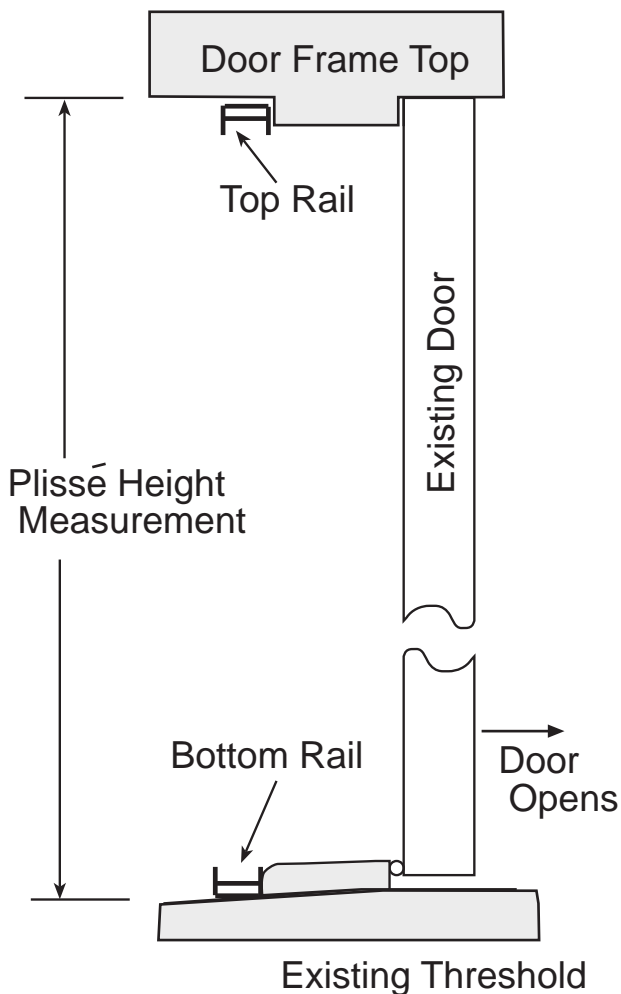

Step 6 Circle the optional threshold adapter needed None Alum Bronze White Oak
See page two of this document for help

Step 7 Gather credit card, credit card billing address and ship to address
We accept Visa Mastercard and Discover

Height Measurements and Threshold Adapters

The drawings below show typical Plisse installations for in-swing and out-swing and for both single and double doors.

Typical Installation Without Threshold Adapter

Typical Installation With Threshold Adapter
