

## Assembly and Installation Instructions for Trident Hatch/Door (Single Shade/Screen)

### TOOLS NEEDED

- Large Allen Wrench
- Small Allen Wrench

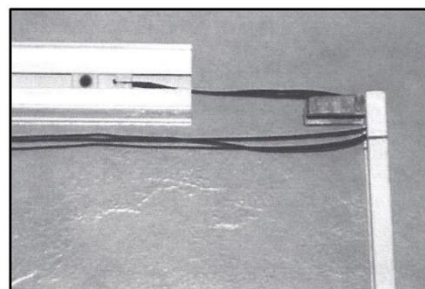

### PARTS

- #4 Screws
- #6 Screws
- 2 Side units
- 2 Rails
- 6 Screen Board Hole Covers
- Handle(s)

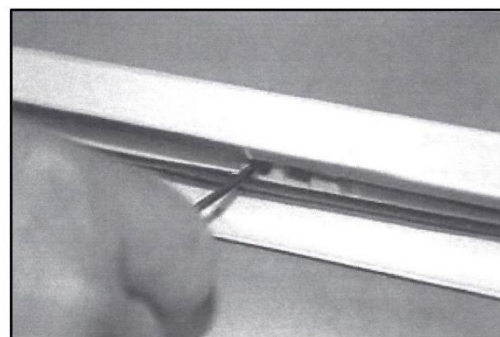

### ASSEMBLY INSTRUCTIONS

- After unpacking box, lay parts out on floor matching the colored dots.
- Insert tension blocks in top and bottom rails.
- Assemble unit by pushing rails onto the corners of the frame and the latch frame. **BE CAREFUL NOT TO PINCH TENSION LINES BETWEEN THE RAILS AND CORNERS.**
- Using the provided allen wrench, slide tension block to arrow. **DO NOT OVER TIGHTEN.**
- Remove packing tape and blocks from frame side.

### MOUNTING INSTRUCTIONS

- Hold shade up in pocket.
- Mount the side without the shims first.
- Mount the other side using shims.
- Mount rail that has the fabric housing.
- Mount forward rail.
- Place cap covers on the forward and back rails.
- The longest cords are for the tension blocks in the center of the shade.
- If the shade fabric bows, tighten the tension some more.
- Spray the rails with silicone when complete.

**Tighten the Tension**
